

MXPOWER

Solar Mobile Charger

Portable Rechargeable (Includes Battery Bank)

- ✔ Angular Attractive Design to Absorb Maximum Sunlight.
- ✔ 2.25W of Solar Mono Crystalline Panel.
- ✔ More than 19Wh of Internal Storage capacity.
- ✔ Can be charged with 230V AC supply using D-type 5V Mobile Charger

- ✔ Mobile charging with 2A charging possible due to inbuilt Energy storage
- ✔ 2 Phones/ devices can be charged simultaneously
- ✔ Placing the Solar charger in sunlight facing towards the SUN will charge the Battery bank.
- ✔ You can charge the Battery bank thru 230V AC by using normal 5V AC-DC charger

- ✔ Energy stored in robust Lithium Ferro-Phosphate (LFP) battery which has more safety over other Lithium battery chemistry
- ✔ LFP battery has more life than lithium polymer of Lithium ion batteries
- ✔ Dual Charging from Solar & thru GRID is possible
- ✔ Make in India product which assures Quality & reliability of the product
- ✔ Excellent Value for Money

APPLICATIONS

- ✔ To keep phone charged of people going for trekking
- ✔ People walking on pilgrimage like Vari's / Narmada Parikrama etc,
- ✔ Sales team who is always on the run
- ✔ Farmers who don't have easy access to power during the day.
- ✔ Policemen who are always in the field.
